5 Cemented Carbide Tap Series

l lk Ds

Spiral Fluted Taps | Spiral Fluted Taps (for through hole)

Spiral Pointed Taps (for through hole)

Hand Taps

Carbide Taps for Hard Materials

Specification

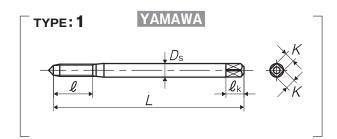

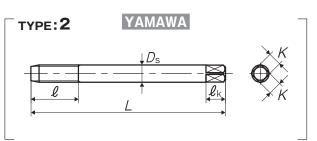

Tapping Speeds depending on Materials

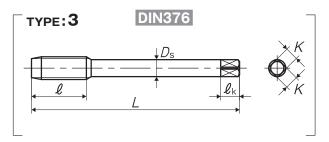

Product Features

- Ideal for hilgh hardness steel blind hole tapping of 45 to 55 HRC materials such as steel for hot dies (SKS 3, SKD 11, etc.).
- The EH-CT utilizes a ultra fine grain cemented carbide that is superior in abrasion resistance and impact resistance.
- Improved run-out accuracy of whole tap and circularity of shank.
- Tapping length is the "major diameter size × 1.5 or less", 5P chamfer for better tool life.
- For the bored hole diameter, the maximum minor diameter of a 6H internal thread diameter maximum value is recommended.

Segment: 1L
